Welcome to Sanborn

Middle School

A stack of five books with spines in light blue, yellow, green, orange, and red, positioned on the right side of the white box.

Library Media Center

Welcome to our LMC, the vibrant pulse of our campus! More than just a room full of books, this is a hub of curiosity, creation, and connection. Whether you're looking to dive into a new world between the pages of a novel, tinker with new technology, or collaborate on a big idea, the LMC is where your imagination takes flight.

Your Journey Starts Here

We believe the library is the "Heart of the School," which makes it the perfect place to launch your virtual tour. From here, you'll get a front-row seat to everything our school offers

Academic Excellence

We pride ourselves on maintaining small class sizes. In these spaces, you aren't just a face in a crowd; you are a vital part of a learning community. Our low student-to-teacher ratio ensures that every student receives the personalized attention and mentorship they need to thrive

Our Blended Approach

Cutting-Edge Technology

Cutting-Edge Technology: Students utilize the latest digital tools for research, coding, and collaborative projects, preparing them for a tech-driven future.

Tactile & Analog Learning

From hand-drawn sketches and physical science experiments to lively Socratic seminars and handwritten journals, we value the focus and retention that come from unplugged learning.

Electives

What We Offer

Ceramics

Art

Woodshop

Drama

Choir

Band

Ceramics and Art

These courses develop fine motor skills and spatial awareness. Students learn that "mistakes" are often just part of the creative process, fostering resilience and a unique visual voice.

Wood Shop

This is where geometry and physics come to life. Students gain practical engineering skills and a sense of pride by transforming raw materials into functional, tangible objects through craftsmanship and safety.

Drama

Beyond the stage, drama builds incredible self-confidence and public speaking skills. Students learn empathy by stepping into someone else's shoes and develop the ability to think on their feet.

Choir and Band

Music is a full-brain workout. These programs improve mathematical precision, discipline, and teamwork. Whether it's hitting a harmony or staying in tempo, students learn that individual practice leads to a powerful collective result.

Athletics

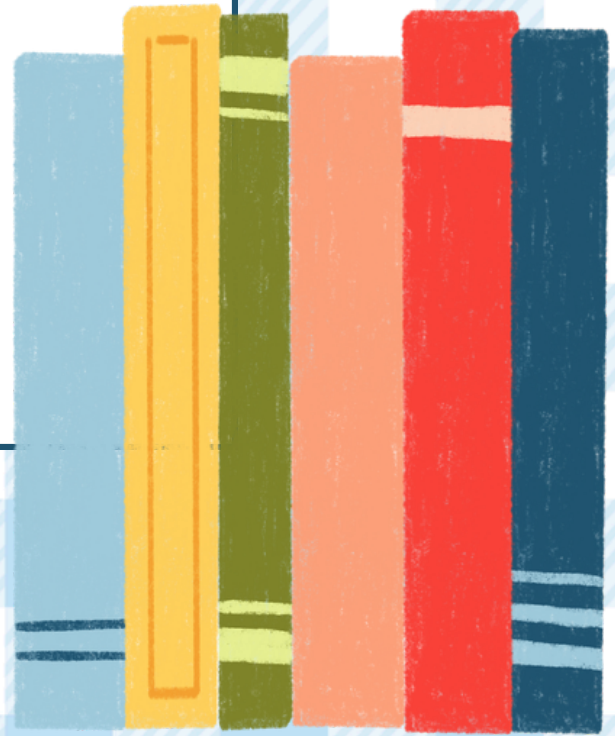

We view our athletic programs as an extension of the classroom, focusing on the development of the "whole student." Whether you are a seasoned athlete or trying a jersey on for the first time, there is a place for you here.

What Teams Can Your Student Join?

A yellow pencil with a black eraser and a sharpened lead tip, positioned diagonally on the left side of the image.

We hope you enjoyed the
“tour”, now have fun
exploring our school!

A stack of five books with spines in light blue, yellow, green, orange, and red, positioned vertically on the right side of the image.
